

Analytics are crucial to understanding the current needs of your business and planning for future growth. However, the right information can be complex and difficult to capture, while tracking and measuring data points can be costly and time consuming. Rapid ERP® allows you to retrieve necessary information immediately with ease and accuracy, helping you make better business decisions.

## □ ELEVATE TRADITIONAL REPORTING

Rapid ERP provides more reports with unparalleled quality than any other solution in the industry. Our reports are highly informative, customizable, and can be easily exported to Word®, PDF, or Excel® for quick distribution to your team. With Rapid ERP, the value of reporting has never been greater to capture or understand.

## □ EASY TO UNDERSTAND GRAPHICAL REPORTS

Because numbers can be overwhelming or get lost in a bin full of papers, data is best understood as graphical representations. Rapid ERP provides an abundance of charts designed to analyze revenue, volume (yards/meters), hours, and job counts, making it easy for you to evaluate your business and stay on top of future trends.

## □ MEANINGFUL PERFORMANCE ANALYTICS

Designing and developing complex yet useful spreadsheet-based analytics has always been the domain of advanced data users. Now, it can be the domain of everyone. Rapid ERP® offers meaningful data visualizations designed by experts with more than 20 years of industry knowledge and experience. With our system, you have the power and tools to create dynamic spreadsheet-based reports that are easily exported to Excel®.

### OWNER'S GUIDE

- Spend less time consolidating data and more time growing your business
- Customizable, on-demand analytics, and reporting
- Refined higher-level information to support better decision making

**TRACK & ANALYZE YOUR COMPANY'S PERFORMANCE WITH  
RAPID ERP® TO GET SUPERIOR AND MORE RELEVANT INFORMATION.**

## ❑ COMPREHENSIVE TRADITIONAL REPORTS

Bridge the gap between interactive analytics and traditional reporting with an extended library of professional reports.

- Group-based reporting on sales, equipment, employees, accounting, etc.
  - Detailed summaries for auditing and accountability
  - Customizable options to sort, filter, and group data in meaningful ways
  - Exportable to PDF, Word®, or Excel® with integrated emailing capabilities
  - Centralized reporting interface that eliminates excessive time-consuming navigation
- 

## ❑ DYNAMIC PERFORMANCE METRICS SPREADSHEETS

A powerful spreadsheet system that does the design work for you, the way you want and without all the effort.

- Date-driven comparison views: monthly, quarterly, semi-annually, and annually
  - Customizable data groupings with relevant performance summaries
  - Select from a comprehensive list of measureable performance metrics
  - Save analysis settings and share them with other users
  - Consumable Excel® exports that maintain look and feel
- 

## ❑ INTERACTIVE ANALYTICS DASHBOARD

Rapid ERP® provides easy-to-understand graphical analysis with advanced comparison features: equipment and customer based perspectives bring quick insight regarding fleet optimization and customer trends.

- Multiple graphical and numeric charts: pie, bar, line, and column
- Contains the industry's largest collection of analytical information
- Comparable graphs and charts (e.g., average customer to specific customer)
- Multiple monitor support for greater overview
- Task-driven customizable dashboard per user
