

# WEAR PARTS PURCHASING

IN PARTNERSHIP WITH

RAPID

MARKETPLACE®

The foundation of your business relies on properly maintaining your fleet with the parts it needs. Mistaken and mismanaged orders combined with a lengthy parts acquisition leads to unnecessary downtime, causing income loss and customer discontent. Rapid MarketPlace® was developed in partnership with Construction Forms®, the leader in concrete pumping systems, to provide fully integrated equipment-based ordering systems that keep your fleet running at optimum levels.

## □ ONE-STOP SOURCE FOR ALL YOUR PARTS

Your time is money! Don't waste it flipping through paper catalogs or calling multiple suppliers trying to find the parts you need for your equipment. With the Rapid MarketPlace®, you can find what you need in one place and submit your P.O. directly to industry leading manufacturers that you know and trust.

## □ END-TO-END LIVE ORDER MANAGEMENT

Digging for pricing and trying to load and utilize individual manufacturer-supplied software can be tedious and difficult, the Rapid MarketPlace® provides live, updated pricing and part information from manufacturers like Construction Forms®. Additionally, you can get status updates on orders, correspond directly with manufacturers, and review your communication history.

## □ RAPID ERP® INTEGRATED TECHNOLOGY

Poor management of orders can lead to costly downtime. The new Rapid MarketPlace® is fully integrated into the Rapid ERP® System and provides industry-backed order management with end-to-end support and accountability. Now you can browse, purchase, manage, and track all your orders for parts without running multiple systems or manually tracking them in employee email boxes.

### OWNER'S GUIDE

- Search, browse, and purchase from the industry's largest inventory of parts
- Reduce costly downtime from lengthy and hard-to-manage ordering processes
- Same parts, same prices, improved ordering experience

**THE ONLY CENTRALIZED MARKETPLACE, BACKED BY INDUSTRY-LEADING MANUFACTURERS, THAT KEEPS YOUR BUSINESS IN ACTION.**

## □ FULL-FEATURED DIGITAL CATALOG

Find the right parts quickly when you need them with fully-integrated order fulfillment, tracking, and processing.

- Largest list of wear parts within the industry
  - Features your negotiated pricing list
  - Easy-to-understand searching, browsing, and purchasing
  - Rapid ERP-integrated P.O. management process: create, issue, and track orders from manufacturers
  - Modern shopping experience similar to leading online retailers
- 

## □ MEANINGFUL SUPPORT & KNOWLEDGEBASE SYSTEM

Confidently place orders knowing you are backed by community support and industry experts.

- “Ask an expert” feature allows direct communication with sales or engineering personnel from manufacturers
  - Order-related messaging with communication history
  - Community-supported Rapid MarketPlace® knowledgebase
  - Readily available phone and email support whenever you need it
  - Knowledgeable U.S.-based support
- 

## □ BACKED BY INDUSTRY LEADERS

Reliability and order fulfillment are assured with the support of leading industry manufacturers

- **Developed in partnership with Construction Forms® - the industry leader in concrete pumping systems**
- Developed by Rapid Applications Group, the makers of Rapid ERP Systems - the leading software solution for the industry
